### EXPERIENCE

Fresher (Newbie Front-End Developer)  
While I have no professional experience yet, I've worked on several personal and clone projects to improve my skills and gain hands-on experience in front-end development.

Built website clones using HTML, CSS, and Tailwind CSS.

### LEARNING & CAREER GROWTH

Currently learning **Advanced JavaScript** and **Front-End Frameworks**

Exploring **React.js** and **API integration** for dynamic websites

Interested in **UI/UX design principles** and user experience improvement

Focused on building a strong **portfolio** to showcase skills
